

Results of Public consultation regarding the parks in Cam – Woodfields School 22nd March

Whilst attendance to the consultation was lower than anticipated it was interesting and informative to get the opinions and viewpoints of those who participated. In general, it was felt that there were desired improvements in all 3 park but in particular; Woodfields and Jubilee Fields. My recommendation is that we use the data below to draw up some initial ideas/designs for the parks then return for another session with various community groups to get their thoughts on the proposals.

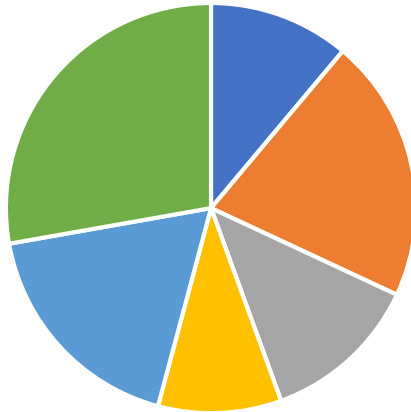

- ### A bad play space...
- Dogs loose
 - Dog fouling
 - Littered with rubbish
 - not fenced by surrounding roads
 - Dark at night
 - Unsafe (near roads)
 - Has no parking facilities
 - Broken

- ### A good play space is...
- Somewhere children feel safe
 - Fenced to stop children running off
 - Suitable or all ages
 - Has parking
 - Suitable for bikes/scooters
 - Big open space
 - Activities to do
 - Clubhouse
 - Hard to break
 - No dogs
 - Considers the neighbours as well as users
 - Has a place for teenagers to stay dry with wifi

Activity types most preferred:

- Aerobic (interactive sutu, memo, gym, hiking)
- Creative (chalk, storytelling, makaton signage, den-making)
- Muscle Strength (push-ups, gym, rock-climbing)
- Flexibility (tai-chai, yoga, low impact, fitness bench)
- Competitive (particularly liked idea of running track)
- Urban (ball games, wheeled sports, calisthenics)

Sensory play types most preferred:

- Proprioception (jumping, climbing, hanging, digging)
- Vestibular (lay, spin, crawl, swing)
- Sight (motion, reflections, colours)
- Touch (texture, tactile, sand, water)
- Sound
- Smell

Favourite activities	Water play, splash zones, create an area people will travel to get to. Could set up snack store for raising funds Wild area for discovery and den building
Who is the park for?	Everyone My children aged 6, 12, 13 Participants and spectators Children with ASD Get Woodfield park to move a lot of things
How will we design for all visitors?	More facilities required for teenagers Consider those supervising as well as those using the equipment Facilities for older teens and/or adults Make Woodfield park more fun Jubilee - please repair things that are there make things for all ages
Most popular visiting time	During day for pre-school age and weekends Woodfield very popular after school
Ideas I have seen before and think would work	older children swings in woodfields BMX track would be great in jubilee Sand play Water play Zip wires Dog parks Nice picnic areas Swings for children over 6 Cableway Markers for runners - 200m, 400m, 1km Large climbing frames, spider webs
